U. S. Patent and Trademark Office PTO-326 (Rev. 9-67)

Part of Paper No.

Application/Control Number: 09/765,830

Art Unit: 3652

N

## **Detailed Action**

- 1. In claim 5, line 1, and claim 18, line 1, "linkage" should be --link--. See claims 1 and 11.
- 2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 1, 6, 7, 11, 12, 13, 14, 19, 20, 21 and 24-29 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bacchi et al '444.

Regarding claims 24-29, note Figure 10 wherein each blade can be moved to an aligned position A or an offset position B or C.

4. Claims 1, 6, 7, 11, 12, 13, 14, 19, 20, 21 and 24-29 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bacchi et al '768.

Regarding claims 24-29, note Figure 9.

- 5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 6. Claims 2 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bacchi et al '444 or '768 in view of Hiruma et al.

It would have been obvious to use a stepper motor for each motor in either primary reference in view of the teaching in Hiruma if desiring to save weight.

Application/Control Number: 09/765,830

Art Unit: 3652

۹,

7. Claims 5, 8,9, 10, 18 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bacchi et al '444 or '768 in view of Tepolt.

It would have been obvious to use two segment arms instead of three segment arms in either primary reference in view of the teaching in Tepolt. This would provide a unitary main linkage.

Regarding claims 10 and 23, the 2 to 1 ratio is standard for a straight line movement and would have been obvious in a two arm system. Note Bacchi illustrates this straight line movement in Figure 3. This would provide the claimed rate movement of the arm and blade.

- 8. Applicant's arguments have been carefully considered but art not deemed persuasive.

  Motor 50R and 50L in Bacchi '444 and '768 extend and retract their respect arms. Motors 52R and 52L can be used to provide additional operation but applicant's claims do not preclude these additional motors. See Bacchi '444, the paragraph bridging columns 5 and 6 and Bacchi '768, column 7, lines 46-59.
- 9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Application/Control Number: 09/765,830 Page 4

Art Unit: 3652

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

10. Any inquiry concerning this communication should be directed to D. Underwood at telephone number (703) 308-1113.
